TMD issue date	30/11/2023	TMD V	ersion 3
SUMMARY	This product is intended for use as a smaller allocation (up	to 25%) for	a consumer who is seeking capital

growth and has a high -very high risk /return profile for that portion of their investment portfolio. It is likely to be consistent with the financial situation and needs of a consumer with a 5-year investment timeframe and who is unlikely to need to withdraw their money on less than one week's notice.

This Target Market Determination (**TMD**) is required under section 994B of the Corporations Act 2001 (Cth) (**Act**). This TMD describes the class of consumers that comprises the target market for the financial product and matters relevant to the product's distribution and review (specifically, distribution conditions, review triggers and periods, and reporting requirements). Distributors must take reasonable steps that will, or are reasonably likely to, result in distribution of the product being consistent with the most recent TMD (unless the distribution is excluded conduct).

This document is not a product disclosure statement and is not a summary of the product features or terms of the product. This document does not take into account any person's individual objectives, financial situation, or needs. Persons interested in acquiring this product should carefully read the Product Disclosure Statement (**PDS**) for the Resolution Capital Global Property Securities Fund (Managed Fund) before making a decision whether to invest in the product.

Important terms used in this TMD are defined in the TMD Definitions which supplement this document. Capitalised terms have the meaning given to them in the product's PDS, unless otherwise defined. The PDS can be obtained by visiting <u>www.rescap.com</u> or by contacting the issuer on 1300 010 311.

TMD Indicator Key

The Consumer Attributes for which the product is likely to be appropriate have been assessed using a red/amber/green rating methodology with appropriate colour coding:

In target market (Green)

Potentially in target market (Yellow) Not considered in target market (Red)

Instructions

In the tables below, Column 1, Consumer Attributes, indicates a description of the likely objectives, financial situation and needs of the class of consumers that are considering this product. Column 2, TMD indicator, indicates whether a consumer meeting the attribute in column 1 is likely to be in the target market for this product.

Appropriateness

The Issuer has assessed the product and formed the view that the product, including its key attributes, is likely to be consistent with the likely objectives, financial situation and needs of consumers in the target market, as the features of this product in Column 3 of the table below are likely to be suitable for consumers with the attributes identified with a green TMD Indicator in Column 2.

Investment products and diversification

A consumer (or class of consumer) may intend to hold a product as part of a diversified portfolio (for example, with an intended product use of minor allocation). In such circumstances, the product should be assessed against the consumer's attributes for the relevant portion of the portfolio, rather than the consumer's portfolio as a whole. For example, a consumer may seek to construct a balanced or moderate diversified portfolio with a minor allocation to growth assets. In this case, a product with a

Target Market Determination | Resolution Capital Global Property Securities Fund (Managed Fund) Fund | Version 3

RESOLUTION CAPITAL

High risk/return profile may be consistent with the consumer's objectives for that minor allocation notwithstanding that the risk/return profile of the consumer as a whole is Medium. In making this assessment, distributors should consider all features of a product (including its key attributes).

The FSC has provided more detailed guidance on how to take this portfolio view for diversification, available on the FSC website.

DISTRIBUTION CONDITIONS			
Distribution Conditions	Distribution condition rationale	Distributors / Investors the condition applies to	
Retail clients who have not received personal advice (as defined in the Corporations Act) must complete consumer attribute questions to identify the purpose of their investment. Responses to these questions will be assessed by the issuer to determine if a significant dealing has occurred. If the applicant is identified as being at risk of harm, the issuer's trained staff will contact the applicant to ensure the risks of the product are fully understood. Risk of harm is assessed	This distribution condition will make it likely that the issuer can identify if the product is being effectively distributed within the target market.	Retail clients who invest directly with the issuer and have not received personal advice. Investment can be made either by completing a physical application form or by completing the online version of the same form.

Complaints (as defined in section 994A(1) of the Act) relating to the product. The distributor should provide all the content of the complaint, having regard to privacy.	As soon as practicable but no later than 10 business days following end of calendar quarter.	All distributors
Significant dealing outside of target market, under section 994F(6) of the Act. See Definitions for further detail.	As soon as practicable but no later than 10 business days after distributor becomes aware of the significant dealing.	All distributors

If practicable, distributors should adopt the FSC data standards for reports to the issuer. Distributors must report to Pinnacle Fund Services Limited using the method specified here.

TERM	DEFINITION
Consumer's investment objectiv	e
Capital Growth	The consumer seeks to invest in a product designed or expected to generate capital return over the investment timeframe. The consumer prefers exposure to growth assets (such as shares or property) or otherwise seeks an investment return above the current inflation rate.
Capital Preservation	The consumer seeks to invest in a product designed or expected to have low volatility and minimise capital loss. The consumer prefers exposure to defensive assets that are generally lower in risk and less volatile than growth investments (this may include cash or fixed income securities).
Income Distribution	The consumer seeks to invest in a product designed or expected to distribute regular and/or tax-effective income. The consumer prefers exposure to income-generating assets (this may include high dividend-yielding equities, fixed income securities and money market instruments).
Consumer's intended product us	je
Solution / Standalone (up to 100%)	The consumer may hold the investment as up to 100% of their total investable assets. The consumer is likely to seek a product with very high portfolio diversification.
Major allocation (up to 75%)	The consumer may hold the investment as up to 75% of their total investable assets. The consumer is likely to seek a product with at least high portfolio diversification.
Core allocation (up to 50%)	The consumer may hold the investment as up to 50% of their total investable assets. The consumer is likely to seek a product with at least medium portfolio diversification.
Minor allocation (up to 25%)	The consumer may hold the investment as up to 25% of their total investable assets. The consumer is likely to seek a product with at least low portfolio diversification.
Satellite allocation (up to 10%)	The consumer may hold the investment as up to 10% of the total investable assets. The consumer may seek a product with very low portfolio diversification. Products classified as extremely high risk are likely to meet this category only.
Investible Assets	Those assets that the investor has available for investment, excluding the residential home.
Portfolio diversification (for com	pleting the key product attribute section of consumer's intended product use)
Very Low	The product provides exposure to a single asset (for example, a commercial property) or a niche asset class (for example, minor commodities, crypto-assets or collectibles).
Low	The product provides exposure to a small number of holdings (for example, fewer than 25 securities) or a narrow asset class, sector or geographic market.
Medium	The product provides exposure to a moderate number of holdings (for example, up to 50 securities) in at least one broad asset class, sector or geographic market (for example, Australian fixed income securities or global natural resources).
High	The product provides exposure to a large number of holdings (for example, over 50 securities) in multiple broad asset classes, sectors or geographic markets.
Very High	The product provides exposure to a large number of holdings across a broad range of asset classes, sectors and geographic markets with limited correlation to each other.
Consumer's intended investmen	t timeframe
Minimum	The minimum suggested timeframe for holding the product. Typically, this is the rolling period over which the investment objective of the product is likely to be achieved.
Consumer's Risk (ability to bear	
	the risk of this product on a scale of 1 (very low) to 7 (very high), higher than 7 is considered
to be extremely risky. The risk ra

free.	Fourther relationships at of the second se
Low	For the relevant part of the consumer's portfolio, the consumer:
	 has a conservative or low risk appetite, socks to minimical valatility and potential losses (a.g. bas the ability to bear up
	 seeks to minimise volatility and potential losses (e.g. has the ability to bear up to 1 negative return over a 20 year period (SRM 1 to 2)), and
	is comfortable with a low target return profile.

CAPITAL	1/
	The consumer typically prefers stable, defensive assets (such as cash).
Medium	For the relevant part of the consumer's portfolio, the consumer:
	 has a moderate or medium risk appetite,
	• seeks low volatility and potential losses (e.g. has the ability to bear up to 4
	negative returns over a 20 year period (SRM 3 to 5)), and
	 is comfortable with a moderate target return profile.
	The consumer typically prefers defensive assets (for example, fixed income).
High	For the relevant part of the consumer's portfolio, the consumer:
8	 has a high risk appetite,
	 can accept high volatility and potential losses (e.g. has the ability to bear up to 6
	negative returns over a 20 year period (SRM 5 or 6)), and
	 seeks high returns (typically over a medium or long timeframe).
	The consumer typically prefers growth assets (for example, shares and property).
Very High	For the relevant part of the consumer's portfolio, the consumer:
very High	
	 has a very high risk appetite, appearant year high violatility and natential lasses (a.g. has the shility to hear 6)
	 can accept very high volatility and potential losses (e.g. has the ability to bear 6 to 7 negative returns over a 20 year period (SRM 6 or 7)), and
	• seeks to maximise returns (typically over a medium or long timeframe).
	The consumer typically prefers high growth assets (such as high conviction portfolios,
F	hedge funds, and alternative investments).
Extremely High	For the relevant part of the consumer's portfolio, the consumer:
	 has an extremely high risk appetite,
	can accept significant volatility and losses, and
	 seeks to obtain accelerated returns (potentially in a short timeframe).
	The consumer seeks extremely high risk, speculative or complex products which may
	have features such as significant use of derivatives, leverage or short positions or may be
	in emerging or niche asset classes (for example, crypto-assets or collectibles).
Consumer's need to access cap	ital
	ses the likely period of time between the making of a request for redemption/withdrawal (or
	more generally) and the receipt of proceeds from this request under ordinary circumstances.
	e frequency for accepting the request and the length of time to accept, process and
-	a request. To the extent that the liquidity of the underlying investments or possible liquidity
	er or delay redemptions) could impact this, this is to be taken into consideration in aligning
	need to access capital. Where a product is held on IDPS, distributors also need to factor in
	rs take to process requests for redemption for underlying investments. Where access to
	product is likely to occur through a secondary market, the liquidity of the market for the
	ue on market should be considered, including in times of market stress.
Distributor Reporting	
Significant dealings	Section 994F(6) of the Act requires distributors to notify the issuer if they become aware
	of a significant dealing in the product that is not consistent with the TMD. Neither the Act
	nor ASIC defines when a dealing is 'significant' and distributors have discretion to apply
	its ordinary meaning.
	its ordinary meaning. The issuer will rely on notifications of significant dealings to monitor and review the
